To whom it may concern:

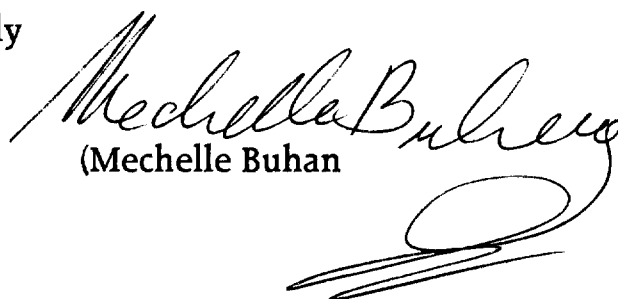

There should be NO RESTRICTIONS to the delivery of COMPOUNDED medications prescribed for me.

I need to take "custom compounded hormones" (progesterones and estrogens) for the regular, commercial prescriptions for hormones make me very ill.

The MOU must be amended; after all, the FDA has a responsibility where the welfare of people is concerned.

Physicians (and patients, as myself) should have the right to obtain healthcare products from the provider of their choice.

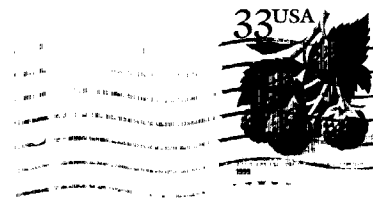

Respectfully
